

**Frank Granberg and Mary Hartung** - Frank and Mary are very unique and a special couple who epitomize making the City of Safford a great place to live, work and visit. Mary had a very successful business and Frank had a great career in management and teaching at Eastern Arizona College. Their greatest achievement, however, is not in what they have received – their greatest achievement is what they have given to others to enhance the quality of life for those who are in need. Some of their volunteer activities include being key officers in the Board of Directors at the Mt. Graham Regional Medical Center (MGRMC); Board of Directors for the MGRMC Foundation which helped fund the building of our beautiful Cancer Center providing the latest mammogram machine and helping with the hospice program. In addition, they have been hospice volunteers (Frank still is) and both volunteer to help patients suffering from Alzheimer’s disease. They are active in their church, their community and are very supportive of their family. Frank and Mary, by the fabric of their lives, help to weave a blanket of love wherever they are. Frank and Mary definitely help to make the City of Safford a great place to live, work and visit.
