

Mel Taylor along with Gina and Brian Morrow are being recognized for their outstanding renovations at 1423 Central Avenue (Central Avenue/15th Street). Mel says this was a family project and Gina and Brian are the owners of the home. The before and after pictures show an amazing transformation of the residence and a newspaper dated 1890 was even found when the old siding was removed from the house. The project had a lot of volunteer help and neighbors are very appreciative of the reformation. These extensive improvements have certainly added to the beauty of our community.
