

CITY COUNCIL COMMUNICATION

TO: Mayor and Council
FROM: Jenny Howard, Utilities Director
SUBJECT: Sunrise Village Electric Upgrade
DATE: Monday, February 13, 2017 at 6:00 p.m.

Purpose and Recommended Action:

This project consists of the installation of 6,545 LF of underground electrical conduit, necessary trenching and asphaltic concrete patching. Funding for the project will be provided from the current City Council adopted budget for the Electric Division Capital Improvements, CIP No. EL1701.

It is the recommendation of the Utility Director that the City Council award the project to EW Parker Enterprises, LLC in the amount of \$184,295.

Background:

The project will install underground electrical conduit to replace the existing direct bury primary at the Sunrise Village Mobile Home Park. This area was acquired with the GCEC territorial exchange and is the last section of direct bur primary within our system.

The installation of the conduit minimizes the duration of outages should a failure occur.

Analysis:

In January 2017, following formal bidding procedures, we solicited bids, bids were due on January 30, 2017; three proposals were received and they are summarized below:

| <u>Bidder</u> | <u>Bid Amount</u> |
|----------------------------|-------------------|
| EW Parker Enterprises, LLC | \$184,295.00 |
| The Fishel Company | \$411,430.96 |
| KE&G Construction, Inc. | \$229,320.00 |
