

# August 2020 Monthly Report

## cloudLibrary Content

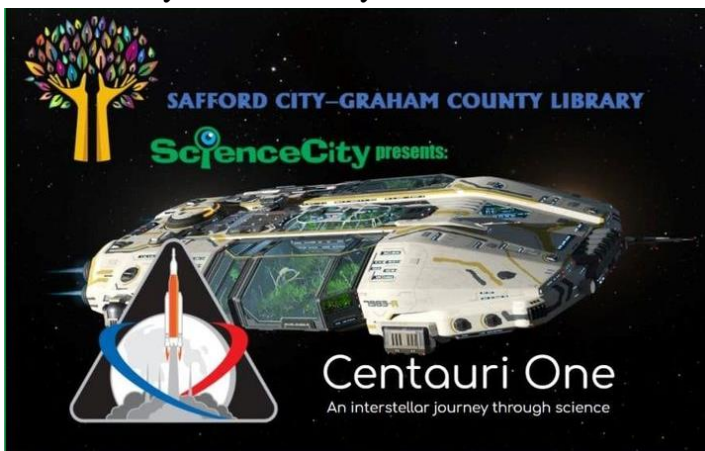

Thanks to a grant from the Arizona State Library, Archives and Public Records, the library was able to purchase additional ebook and eaudiobook titles for the cloudLibrary platform. The library was able to purchase 40 additional titles related to the topics of equity, diversity, inclusion and social justice.

## Book Bundles

The library has begun offering book bundles, which are pre-selected picture books for Preschool – 1<sup>st</sup> graders. The set of books are one of six themes: Animals, Bedtime, Bugs and Reptiles, Dinosaurs, Fairy Tales and Things That Go. Each bundle also includes activity sheets that support early literacy skills. Bundles can be picked up in the library or put on reserve for curbside pickup.

## ScienceCity Program

ScienceCity at the Library this Fall will be an online experience through Centauri One, an interstellar journey through science. Participants will explore everything from growing plants in nothing but water, mapping the night sky, launching rockets to making landfall on the planet by using home built materials. The program starts September 15<sup>th</sup> for children ages Kindergarten through 6<sup>th</sup> grade. Registration started online September 1<sup>st</sup>. Participants can visit <https://sites.google.com/view/centaurione/home> for more information and to register.

## Coding Club Program

Coding Club is also changing this year to Next Level Coding. It is a club for the ages of 11 to 16. This class will teach the basics of coding and combine it with the basics of tabletop roleplaying games. This will allow teens to utilize their imagination and build a character from the ground up, and the world they play in, all while learning how coding is brought into the game, and mixing in familiar coding programs such as Scratch and Ozoblockly. Registration begins September 16<sup>th</sup> with the program starting October 1<sup>st</sup>.
